VERIFICATION STATEMENT ANNEX

KIOSCERT has been contracted by SUVARİ GEMİ KİRALAMA VE ACENTELİĞİ MAKİNA TURİZM İNŞAAT SANAYİ TACARET A.Ş.

(hereinafter referred to as the "Company"), for the verification of Greenhouse Gas emissions in accordance with

ISO 14064-1: 2019 as provided by the Company, in the GHG Assertion in the form of GHG report covering GHG emissions of the year 2024 (01/01/2024-31/12/2024)

1. Level of Assurance

The level of assurance agreed is that of **reasonable assurance**. This means that the nature and extent of the verification activities have been designed to provide a high but not absolute level of assurance on historical data and information.

2. Scope

The Company has commissioned an independent verification by KIOSCERT of reported GHG emissions of the Company arising from the production of International Freight Forwarding Service to establish conformance with ISO 14064 principles within the scope of the verification as outlined below.

Begonya Sok. Nidakule Kuzey Ataşehir No: 3/85 Ataşehir / İstanbul This engagement covers verification of emission from anthropogenic sources of greenhouse gases included within the organization's boundary and is based on ISO 14064-1:2019.

Title or description activities: GHG verification of SUVARİ GEMİ KİRALAMA VE ACENTELİĞİ MAKİNA TURİZM İNŞAAT SANAYİ TACARET A.Ş.

- footprint for year 2024
- Location/boundary of the activities: Barbaros Mah. Begonya Sok. Nidakule Kuzey Ataşehir No: 3/85 Ataşehir / İstanbul
- Physical infrastructure, activities, technologies and processes of the operation: International Transportation Service
- GHG sources included:
 - Category 1: Fuel combustion, Refrigerant leaks
 - Category 2: Purchased electricity
 - Category 3: Not applicable
 - Category 4: Not applicable
 - Category 5: Not applicable
 - Category 6: Not applicable
- Types of GHGs included: CO₂, CH₄, N₂O
- GHG information for the following period was verified: 2024

3. Criteria

Criteria against which the verification assessment is undertaken are the principles of ISO 14064-1:2019 and ISO 14064-3:2019

4. Criteria

Criteria against which the verification assessment is undertaken are the principles of ISO 14064-1:2019 and ISO 14064-3:2019

5. Confidentiality

The reports and attachments may contain relevantly confidential information of the Company. In addition to being submitted as governmental application or certification documents, the reports and attachments are not allowed to be edited, duplicated, or published without the Company's agreement in written form.

6. Conclusion

The Company provided the GHG assertion based on the requirements of ISO14064-1:2019. The GHG information for the production of International Freight Forwarding Service for the year 2024 disclosing emission of **1.136,713 tonnes of CO₂ equivalent** are verified by KIOSCERT to a reasonable level of assurance, consistent with the agreed verification scope, objectives and criteria.

According to the calculation of the Company, total emissions, in tn CO₂ eq, are allocated as presented below:

- Category 1: 14,8736
- Category 2: 996,5776
- Category 3: 124,9556
- Category 4: 0,16630
- Category 5: n/a
- Category 6: 0,1389

KIOSCERT's approach is risk-based, drawing on an understanding of the risks associated with reporting GHG emissions information and the controls in place to mitigate these. Our examination includes assessment, on a test basis, of evidence relevant to the amounts of the organization's disclosures in relation to the organization's reported GHG emissions.

We conducted our verification regarding the GHG assertion of the Company which included assessment of GHG information system, monitoring and reporting plan/protocol. This assessment included the collection of evidence supporting the reported data and checking whether the provisions of the monitoring plan, were consistently and appropriately applied.

In KIOSCERT's opinion the presented GHG assertion

-is materially correct and is a fair representation of the GHG data and information and

-is prepared in accordance with ISO14064-1:2019 on GHG quantification, monitoring and reporting.
